

PRESS RELEASE
DELAWARE COUNTY VOLUNTARY EMBARGO

Contact: Anthony T. Bardgett, Delaware County Engineer
(563) 927-3505

Date: March 16, 2009

The Delaware County engineer respectfully requests a voluntary embargo of the gravel roads throughout the entire county. As the days are starting to warm up, the roads are becoming soft and possibly impassible. We request that everyone limit travel until the roads have a chance to heal. The Secondary Roads Department will attempt to fix areas that are a danger to the public but will not start "normal" maintenance duties until the threat of winter storms is mostly past. If you must haul, please limit travel to the early mornings if and when the roads are frozen. We appreciate your patience and understanding in this transition time.
